SESP PULSE

WEEKLY NEWSLETTER

The horizon is not a destination; it is a direction

At SESP, we believe true advancement requires constant motion. Inertia is the enemy of progress. We do not wait for opportunities; we create them . Our strength is multiplied by every bold step each of you takes. Keep moving, keep leading that is how we define our collective future."

Faces of SESP

Honoring Those Who Lead by Example

Experience that Inspires

Nick — A Devotion to Excellence

Nick's journey at SESP has been defined by unwavering loyalty and profound dedication. His approach isn't merely work; it is a deep commitment where his technical expertise and personal drive merge into a relentless pursuit of excellence.

Now, as a HOD, Nick embodies the spirit of continuous improvement. He leads by example and fostering a culture where every challenge is a catalyst for growth. His remarkable fidelity to SESP's mission and his passionate focus have not only elevated our programs but have fundamentally inspired every colleague and trainee he encounters.

Last Week's News

- SESP signed a Training-for-Employment Agreement with MEMF to develop and employ Saudi technicians in the industrial sector, supporting national workforce localization goals under Vision 2030.

- signing of Community Partnership Agreement with the Tarmeen Charity Foundation. This collaboration perfectly aligns with SESP's commitment to technical and professional excellence and community engagement.

SESP has launched a new Trainee Advisory Council in Riyadh to enhance student roles. We are also launching the Trainee Weekly Newsletter, featuring contributions from all BTC, RTC, and JTC .

Abdulrahman**ELECTRICAL INSTRUCTOR -BTC**

a practical training session for the Nesma Company trainees on the Ring Circuit connection. He explained the concept of the ring final circuit and demonstrated step by step how to implement it in real electrical installations.

**Ali Raza Asghar Jokhio****Technical Instructor- BTC**

Our SESP trainees achieved a high level of engagement today during an inspiring group discussion centered on "Guinness World Records". The session successfully challenged the participants to use their communication, teamwork, and critical thinking skills as they debated the standards for excellence and the drive required to set world-class achievements. I was immensely happy and proud to witness their enthusiastic participation and deep commitment to these vital, skill-building activities, which demonstrates the impressive caliber of our future SESP leaders.

Nasir Mehmood**ESL Instructor-BTC**

Today, I taught my trainees the passive structure, focusing on its importance in technical and scientific English, especially for describing manufacturing processes. I explained how the passive voice is often used when the doer of the action is unknown, unimportant, or obvious, and when the process or result is more important than the performer.

**mohamed mahran****Electrical Engineer - BTC**

SCADA (supervisor control and data acquisition), crucial in the electrical field for real-time monitoring, control, and automation of large-scale systems like power plants and grids (medium, low) voltage, which improves efficiency, reliability, and safety in all grids. It enables us to make predictive maintenance, remote management, and the integration of renewable energy sources by providing operators with critical data to optimize performance and minimize outages.

Let's celebrate our journey — one story at a time.

Behind the scenes

Because we believe that our success is the result of teamwork, we love to share with you these behind-the-scenes moments that make our achievements possible.

"Group 3" excelled in the JTC workshop! Their completed reports on the board are a proud testament to their dedication to mastering incident reporting.

A display of the unwavering commitment of instructors everywhere – their efforts are truly praiseworthy and exemplify genuine dedication.

SESP and MEMF leaders met to sign the training agreement, reinforcing their commitment to empowering the Saudi workforce.

trainees applying their skills in diverse workshop activities: mastering oxygen cutting, precision finishing, essential alignment, and efficient stud welding.

Reflect on Your Week Take a Moment for Yourself

Growth doesn't always come from big moments, sometimes it's in the quiet effort, the curiosity to learn, or the courage to try again.

Ask yourself this week:

- What did I learn that made me better?
- Did I step out of my comfort zone, even in a small way?
- How did I help someone else grow?

Growth doesn't happen overnight; it happens every day you choose to improve

“Together at SESP”

Challenge of the Week

ASESP's goals drive everything we do.

This week's challenge is simple but meaningful: Can you list 2 of SESP's main goals and explain what they mean to you ?

Send your answer to the internal email: sesp_pulse@sesp.edu.sa

Prize: A symbolic gift , your name featured in next week's newsletter!

Last Week's Winner

Four values of SESP Inbox x

Fawad Ali <f_ali@sesp.edu.sa>
to me ▼

Thu, Nov 6, 3:14 PM (7 days ago)

Below are the four values of SESP,
1, SAFETY AND SECURITY
2, EXCELLENCE
3, SUSTAINABILITY
4, PROFESSIONAL PARTNERSHIP

We are delighted to announce that the winner of last week's challenge was Fawad Ali 🎉 for being the first to answer correctly.

Special thanks to all who also answered correctly:

- Edwin Isidro
- Raheel Kamran
- Areeb Ahmed Siddiqui

Your participation and enthusiasm are truly appreciated! 🌟

That's it for this week!

Don't forget to join the challenge and check if your name will be featured in our next issue
