## Forging the Future: Partnerships as the Nation's Engine

**At SESP, we recognize that empowering Saudi citizens is the core of Vision 2030. Our strategic partnerships with industry are not mere collaborations; they are the critical of national success. We utilize these alliances to inject the future directly into the economic veins of the Kingdom, amplifying the potential of every trainee. This is how we dictate the pace of our collective future.**

## Faces of SESP

### Honoring Those Who Lead by Example Experience that Inspires

**Dr. Rahim – A Benchmark of Precision and Excellence**

Dr. Rahim is one of the most impactful figures in SESP's academic landscape, known for his strong expertise and high level of professionalism. His technical and academic contributions have played a significant role in advancing many of the institute's achievements.

He is appreciated for his energy, his drive, and his constant willingness to support others and push the work forward.

Rahim continues to leave a clear, positive mark across SESP through his commitment, consistency, and genuine passion for delivering quality.

## Last Week's News

- SESP signed a Training-for-Employment Agreement with MEMF to develop and employ Saudi technicians in the industrial sector, supporting national workforce localization goals under Vision 2030.

- The Saudi Council of Engineers (SCE) and (SESP) signed a Memorandum of Cooperation (MoC) during Cityscape Global exhibition. The signing of this MoC comes as part of the two parties' efforts to enhance professional training and qualification, elevate the competence of engineering cadres, and support continuous professional development, all of which align with the objectives of Saudi Vision 2030.

- SESP welcomed His Ambassador of Pakistan to its headquarters in Riyadh. The visit underscores a mutual commitment to strengthening cooperation between SESP and the Pakistani Embassy in the field of technical and vocational training.

RTC - SESP honored a group of trainees for their outstanding performance during the month of October.

The recognition included:

Trainees excelling in commitment and discipline and Winners of the monthly Safety Competition.

## Ahmed mahmoud faleh Al-Azzam

### ELECTRICAL INSTRUCTOR -BTC

a practical training session for the Nesma Company trainees on the Ring Circuit connection. He explained the concept of the ring final circuit and demonstrated step by step how to implement it in real electrical installations.

## Khuzaymah Shah.

### mathematics Instructor-JTC

We recently attended a CPD seminar on Nudge Theory and its potential to enhance teaching at JTC. The session demonstrated how small, well-designed behavioural cues—like visual prompts and clearer choices—can positively influence student motivation, participation, and safety habits. The seminar provided practical, evidence-based examples applicable to academic and technical settings, offering simple strategies to immediately enhance the learning experience across all programmes.

## Abdulrahman Hashim

### ELECTRICAL INSTRUCTOR -BTC

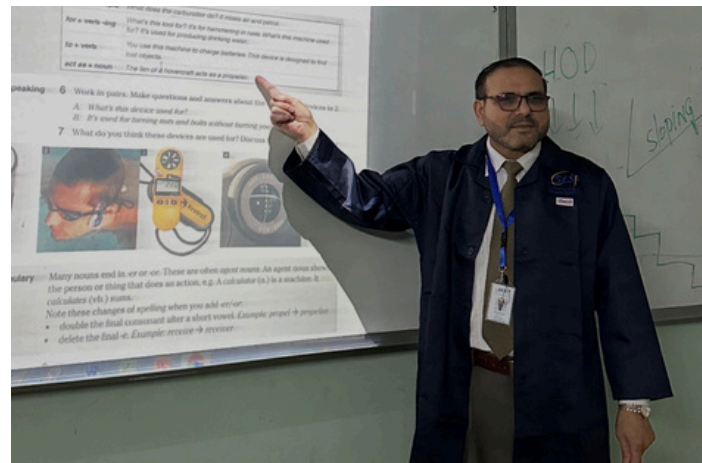

trainees at SESP achieved success by completing Module 4 – Lamp Control, applying industrial schematics to wire and operate lighting systems. This advanced, hands-on training, refines their practical electrical skills and deepens technical understanding. SESP invests in youth potential, equipping them with essential skills, innovation, and discipline to confidently lead the future electrical workforce.

## Nasir mehmood.

### ESL Instructor - BTC

Trainees improved their Technical English, focusing on defining tools, describing industrial processes (like the MB471/316 drill), and using technical vocabulary and passive voice.

**Share Your Week!**

**Let's celebrate our journey — one story at a time.**

## Behind the scenes

Because we believe that our success is the result of teamwork, we love to share with you these behind-the-scenes moments that make our achievements possible.

A scene from the honoring of Tamaruz Company trainees in Ju'aymah, the winners of the Baloot Championship.

A scene from the honoring of HESCO Company's third batch trainees distinguished in attendance.

A scene from the safety inspection (Safety Walkthrough) conducted by the Beish instructors and students on workplace safety.

Scenes from the trainers' presentation of weekly safety tips and the students' participation to raise awareness of a positive safety culture.

## Reflect on Your Week Take a Moment for Yourself

Quality isn't a task we finish—it's a habit that shows who we are.  
Excellence happens when we choose to do things a little better than yesterday.

- What's one thing this week that reflected your best work?
- Where did you intentionally raise the quality of what you delivered?
- What's one improvement you want to make next week for an even better outcome?

And remember—every small step toward better quality is a step toward the best version of your work.

## “Together at SESP”

### Challenge of the Issue

Our values shape the way we work, decide, and show up every day.  
Which two of SESP’s core values come to your mind first?

Send your answer to the internal email: [sesp\\_pulse@sesp.edu.sa](mailto:sesp_pulse@sesp.edu.sa)

**Prize: A symbolic gift , your name featured in next week’s newsletter!**

### Previous Issue Challenge - SESP’S Goals

- To Empower individuals to achieve their professional and personal aspirations through high- quality, industry-relevant training and internationally recognized certifications.
- Align training outcomes with national and global labor market needs in the fields of energy, renewable energy, and construction.
- Foster innovation and technical entrepreneurship among trainees and staff to develop creative leaders for the industrial sector.
- Strengthen industrial partnerships by offering consultancy and training solutions grounded in research, data, and applied knowledge.
- Contribute to sustainable development and the well-being of Saudi society through responsible, safe, and smart technical education.
- Lead institutional excellence by adopting global standards in curriculum design, training delivery, assessment, and quality management.

Special thanks to all who participated:

- Abdulhakim AlMansoori
- Fawad Ali
- Abdullah Ali Al-Mazni

Your participation and enthusiasm are truly appreciated! 🌟

That’s it for this week!
